Introduction

We begin by expressing our gratitude to that outstanding collector, H. R. Lee, for the great privilege of offering this notable collection at unrestricted Public Auction.

In the last few years we have had the honor of selling such remarkable collections as those of Col. Flanagan, J. F. Bell, George H. Hall, E. M. Wharton, Charles Deetz and many others of exceptional quality. Each of these collections was specialized in certain fields. But Mr. Lee covered practically all the United States series. Thus, whether an intending bidder collects all United States issues or specializes in a single series, he will have an opportunity to obtain outstanding additions to his collection.

At the American Numismatic Association Convention in Buffalo, we had the pleasure of showing many of the great rarities of the Lee Collection, and the exhibit was acclaimed as one of the finest there. We offer our thanks to the Committee in charge for their kind cooperation in arranging this display.

Mr. Lee spent decades in gathering his collection, and traveled widely seeking and obtaining the rare and beautiful specimens now offered to the Numismatic fraternity.

Where there are so many coins that collectors will at once recognize as great rarities, it is almost superfluous to point them out individually. But two pieces are such famous gems that we must mention them, namely the 1894 S Dime, and the 1875 Three Dollar Gold Piece.

THE EXCEEDINGLY RARE 1894 "S" MINT DIME

348	1894 "S"	Is unquestionably one of the extreme rarities in United States Silver coins. The fact is there were only 24 of these coins struck and the Cataloguer has for many years tried to find out in what collections these may be found, but met with little success. Our only other experience with these coins was when we acquired the famous Clapp Collection in which there were two specimens. The Clapp collection is now held intact by one of the outstanding Collectors of American coins. This is the first time we are offering at public auction this great rarity. In the fine collection sold by the Numismatic Gallery one brought \$2,350.00 and was purchased by the celebrated collector, Mr. W. W. Neil; it was recently resold by B. Max Mehl for \$2,325.00. Many of the very famous collections of both past and present lacked this particular coin. We are offering in this collection this Brilliant Proof, and we concur with other dealers and catalogers alike that this coin is actually worth \$2,500.00. The collector who will be fortunate enough to possess it has little cause for worry regarding depreciation	—

1870 "S" San Francisco Mint Three Dollar Gold Piece is unquestionably the rarest United States coin regardless of series or metal.

The 1804 Silver Dollar with a record price of \$10,500, or the 1822 \$5.00 Gold Piece, which was sold in the neighborhood of \$15,000 are the closest in value to the 1870 "S" Three Dollar Gold Piece. This coin was advertised by a mid-western dealer at \$20,000 and was purchased by us for a lesser amount and then re-sold to one of our clients, one of America's most outstanding collectors, who values it far in excess of \$20,000. Sorry we cannot offer this coin for sale, but we thought the Collectors might be interested in its history. Here are some of the facts:

From the William H. Woodin, former Secretary of the Treasury, Collection which was sold March 4th, 1911, by Thomas L. Elder.

“LOT No. 1160”

“1870. San Francisco. General types identical to preceding, but the mint mark is smaller and narrower than usual. Over the wreath on reverse appear two or three minute scratches, which are hardly noticeable to the ordinary eye. The milling appears regular.

A reserve price of \$1,000.00 is placed upon this lot.

FACTS REGARDING THE COIN

Accompanying this coin is the indisputable certificate of its genuineness, written in ink on a piece of yellow paper by the coiner of the San Francisco Mint in 1870, Mr. J. B. Harmstead, which reads as follows:

“This Three Dollar piece is a duplicate of one under the corner stone of the San Francisco Mint and the only one in existence.

J. B. Harmstead.”

The coin came from the family of Mr. Harmstead, wrapped in the above note. Newspaper clippings state that in 1870, when the cornerstone of the new San Francisco Mint was laid, one specimen of each variety of the coins of the United States was placed in the corner-stone.

Under date of May 22nd, 1907, Mr. Dan Cole, the present coiner at the San Francisco Mint, wrote as follows:

“The new mint building at our present location, 5th and Mission Streets, was commenced in 1870 and was completed in 1874, and Mr. J. B. Harmstead was then coiner.”

This letter also accompanies the coin.

Several of the greatest numismatists in the United States who have given the coin careful examination, say the piece is authentic and official, basing their decisions more on its general appearance and workmanship than on any written certificate or letter.

Undoubtedly this is the most remarkable gold coin of the regular series, and is, naturally, the only one which will ever be offered at public or private sale, if and when sold.”

The following Brilliant Proofs from 1881 to 1887 are the most desirable in the double eagle series and are very much sought after. Rarely does an opportunity present itself where one may obtain the complete sequence in gem condition.

- 1724 1881 Perfect Brilliant Proof. This is the famous Bell specimen which realized \$380 and worth more today
-

- 1725 1882 Perfect Gem Brilliant Proof. This is the Bell specimen which brought \$405, but records as high as \$450 and still climbing

THE EXCESSIVELY RARE 1883 DOUBLE EAGLE

- 1726 1883 A Perfect example of a Brilliant Proof, absolutely flawless, a match to the Bell specimen which brought \$1350, this one came from a Mehl sale and \$1400 was paid for it, only 40 coins were struck, we doubt if half that number is in existence. We would not be surprised if this realized in the neighborhood of \$2000

- 1727 1884 A companion piece to the preceding lot. Perfect Brilliant Proof. Mint records mention 71 coins struck, but in our honest opinion it is as rare as the 1883. This coin is from one of the fine Mehl sales and was lacking in the "Worlds Greatest Collection" sale. The specimen sold by us in the celebrated Bell collection brought \$1050. We really feel it is worth more today and this is confirmed by the description in the A. N. A. Convention catalog which has just arrived and appraises it at \$1500

- 1728 1885 Brilliant Proof, but not choice as the above, only 828 were made that year but very few proofs were struck, brought \$450 in the Bell Sale for a choice specimen
-

- 1729 1886 Perfect Brilliant Proof. The advanced collectors today realize the rarity of this date, at the "Worlds Greatest Collection" Sale one brought \$575. The Bell specimen not quite as much; but in a mid-western dealer's quotation he values it at \$1000. We would not be surprised if it comes close to that figure
-

- 1730 1887 Perfect Brilliant Proof, only 121 minted but few are known, the Bell specimen sold for \$725. We would not be surprised if with the gradual increases in these rare coins that it may come nearer \$900
-

- 1731 1888 Very Fine and desirable

50.00

- 1732 1889 Perfect Brilliant Proof. This coin from the Bell collection and brought \$330. In our opinion worth more today
-

------	---	---

1735	1892 Perfect Brilliant Proof, this actually is a rare date and more so as a proof, at the "Worlds Greatest Collection" sale one brought \$400, while this specimen comes from the Bell collection it did not bring quite that much, we feel reasonably sure that it may bring \$400	—

UNITED STATES PIONEER & TERRITORIAL GOLD

NORTH CAROLINA & GEORGIA GOLD

Coined From 1831 to 1834

THE FATHER & SON, A. & C. BECHTLER

The following coins which were issued by the Bechtlers are among the first of the private issues of gold coins made at their own private mint owned and operated by Christopher Bechtler and his son August at Rutherfordton, N. C. Although there are a number of varieties due to the dies always breaking, they are the most popular in the South and very much sought after by these collectors. The coinage consisted of \$1.00, \$2.50 and \$5.00 gold, on these coins they designated the weight and fineness of the carat gold they used.

The company had two partners George C. Baldwin and Thomas S. Holman. They had purchased the coining apparatus of F. D. Kohler & Co., in 1850 and shortly after Mr. Holman retired from the Company. Most of the minting done was in the early part of 1851, even though they were dated 1850. They had made \$5.00 and \$10.00, the latter having the famous "Cow Boy Design."

They were assayers in San Francisco during 1853 and 1854 when Mr. Richter retired and the firm became known as Kellogg & Humbert, although all coins issued bore the name of Kellogg & Co. This was one of the most important firms in California. they possibly struck as much or more gold coins than any other company.

PIKES PEAK AND CLARK GRUBER GOLD COINS

Another chapter in American History finds a new Gold Rush in Colorado. Clark Gruber & Co. were the first to issue Gold coins which were made from the local Gold found in the Pikes Peak Region all being dated 1860 and 1861. The mint was opened in Denver and purchased by the government in 1862. One of the provisions of Sale was that a mint should be established in Denver but it was not until 1906 that the government decided to open it.

WASS MOLITOR & CO.

The firm was composed of two Hungarians, Count S. C. Wass and A. P. Molitor. They set up their private mint and commenced coining a \$5.00 Gold piece which had more intrinsic value than any other Private or Regular issue Gold piece. Wass Molitor also struck the \$10.00 and \$20.00 but the most popular coin of all is the \$50.00 gold piece which was round and had more of the resemblance of money than the Octagonal \$50.00 Gold pieces.

Assayer. In 1852, the original firm dissolved and several of the partners assumed the contract of operating the U. S. Assay Office. U. S. ASSAY GOLD COINS

The fineness and weight was stamped on all bars and coins which were made by Moffat & Co. partners, the government contractors in assaying gold. Head of the Assay Office was August Humbert. This office was dissolved in 1853, as the following year 1854, the U. S. Government Mint in San Francisco was opened.

MORMON GOLD COINS

It is interesting to note that Mormons had used very little Metallic Currency apparently using gold dust for exchange. However, in 1849 they saw the need for a mint. The apparatus necessary for the construction of the mint was made by the local residents. The dies were cut by the local dentist John M. Barlow. Every denomination in use by the country such as \$2.50, \$5.00 and \$10.00 were made and used. However, the Mormons were the first to strike a \$20.00 gold piece. The weight and fineness were below the U. S. Standard but nevertheless circulated and were accepted at face value. The original design of the Bishops hat above the eye was changed in 1860 to the Eagle and Bee Hive.
